

CHANGE OF ILLUMINATION

It is easy to change the illumination yourself using the Professional Set-up Manager:

- Open the Professional Set-up Manager.
- Select „Lighting“ with the arrow key.
- The current color program is displayed.
- Select the desired color program with the + / - key.
- After approx. 20 seconds, the program is automatically saved.
- The solarium then automatically switches to standby mode.

PROGRAM OVERVIEW

No.	Colors
4	Change from blue / turquoise / magenta
10	Dark blue changes over white to light blue
20	Change from purple / magenta / orange
21	Blue changes directly to turquoise

43	Red changes via white to turquoise; depending on the device from outside to inside or top to bottom
60	"Rainbow" with four different colors
61	"Rainbow", with soft transition of various colors
62	"Rainbow", with soft transition of purple, magenta, red, orange, yellow
100	Soft transition with random colors
101	Quick transition of random colors
102	Random color runs as a color block through white
3500	Static warm white
3501	Static dark purple
3502	Static magenta
3503	Static red

3504	Static blue
3505	Static turquoise
3506	Static cool white
3510	Static turquoise
3511	Static light blue
3512	Static green/yellow
3513	Static orange
3514	Static pink
3515	Static royal blue
3516	Static mint-green
3517	Static Ice Blue
3518	Static Apricot
3600	Static top orange and bottom blue
3601	Static top blue and bottom orange
3605	Static yellow / blue
3606	Static top magenta and bottom blue
3701	Static blue edge color and middle red
3702	Static red edge color and middle blue
3703	Static turquoise edge color and middle red
3704	Static red edge color and middle turquoise
3705	Static pink edge color and middle light blue
3706	Static light blue edge color and middle mint-green
3800	Oben und unten Rosa und in der Mitte Rosé
3801	Oben und unten Hellblau und in der Mitte Rosa
3802	Oben und unten Mint-Grün und in der Mitte Gelb-Orange

CUSTOM COLOR PROGRAMS

With the following color programs you can select your individual custom color.

Please first select your animation program (eg no. 4000) and then choose your custom color. This will then be automatically applied after approx. 20 seconds.

4000	Custom color changes with white
4001	Static custom color
4050	Custom color transition to white and jump back to custom color

MATRIX EFFECTS**Additional effects available for Elements by Ergoline**

In addition to its standard functions, Elements by Ergoline also offers innovative matrix effects. These provide an even more intense and varied user experience. The effects can be selected individually and enhance the range of possible applications.

1	Static Color
2	Die LEDs starten ausgeschaltet und schalten sich nacheinander von links nach rechts ein
99	The LEDs start switched off and turn on one after another from left to right
100	Magenta moves dynamically
102	Animation of two colors
103	Blue moves dynamically
104	Two-color animation
106	White and blue move dynamically
107	White and turquoise move dynamically
108	Blue and magenta move dynamically

OUR RECOMMENDATIONS

For each tanning bed, we have selected optimally matched lighting that is preinstalled upon delivery:
